## PLAY ACTION

Players drive a brightly colored Formula One type race car through the twisting curves and flat-out straight-aways of a constantly moving track.

Quick reflexes and driving skill are musts for achieving best times and scores.

## New traffic feature provides extra challenge.

Drivers must pass special "dodge" cars that appear randomly on the track or lose valuable time.

Racers must also avoid crashing into pylons, hay bales, grandstands and other roadside obstacles to cover as much distance as possible in the shortest amount of time.

Players start their race with one "fuel unit" (100 fuel units of time), select a track, shift into first, step on the accelerator and blast off.

The roar of acceleration, crash and skid sounds add to the excitement and realism.

"Score", "Fuel" (time remaining), driver ratings: "sory", "so-so", "good", "ace", and high score for each track are displayed after completion of each game.
